DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Everts et al.'489 (Everts). Everts discloses a portable, hand-guided work apparatus (figures 1-18) comprising a frame (generally 12) substantially in the direction of a longitudinal axis (as defined along 40), the frame having first (circa 84) and a second end (area of reference numeral 30) lying opposite that of the first end (as seen in figure 2), an assembly (generally 28) including a drive motor 34 and a work tool (as seen in figures 3-8), the assembly being attached to the frame (as seen in figures 1 and 10) at the first end (via 58); a handle unit 37 mounted on the second end for guiding the apparatus, the handle apparatus having two handles (as seen in figure 1) directed upwardly and away from the surface being worked and having two end portions directed towards one another.
